

# How much should I pay for a flight from Boston to Cancun?

## Summary

- The average return flight from Boston to Cancun costs \$674
- The trip can cost you as little as \$320 and as much as \$6524
- The price depends on factors such as, days of the week travelled on, cabin class, number of stopovers, whether it's a refundable flight or not and which airline you travel with, day of the week booked

## Cabin Class

Somewhat surprisingly, the prices difference between different cabin classes isn't too big. Business class trips are most expensive (at \$786), first class tickets would cost you \$726 and economy class flights on average cost \$674.

## Number of stops

Unsurprisingly, travelling without any stopovers will cost you (\$957 on average). At least one stop (either departing or returning) will save you at least \$100, with the cheapest fare possible for 1 or 2 outbound stops and 3 on the way back.

		Number of return stops			
		0	1	2	3
Number of outbound stops	0	\$957	\$827	\$776	N/A
	1	\$781	\$651	\$639	\$489
	2	\$759	\$635	\$611	\$470
	3	\$769	\$727	\$648	N/A

## Refundable or non-refundable

Non-refundable flights are usually cheaper (\$675 on average), with the refundable trips costing on average almost double that amount - \$1145.

## Day of the Week Booked

What day of the week you book your trip does not make that big of a difference - making reservations on Monday and Tuesday will result in a slightly lower price (\$660). If you want to save some money, don't leave it until the weekend - you will pay up to \$40 more on average.

## Airline

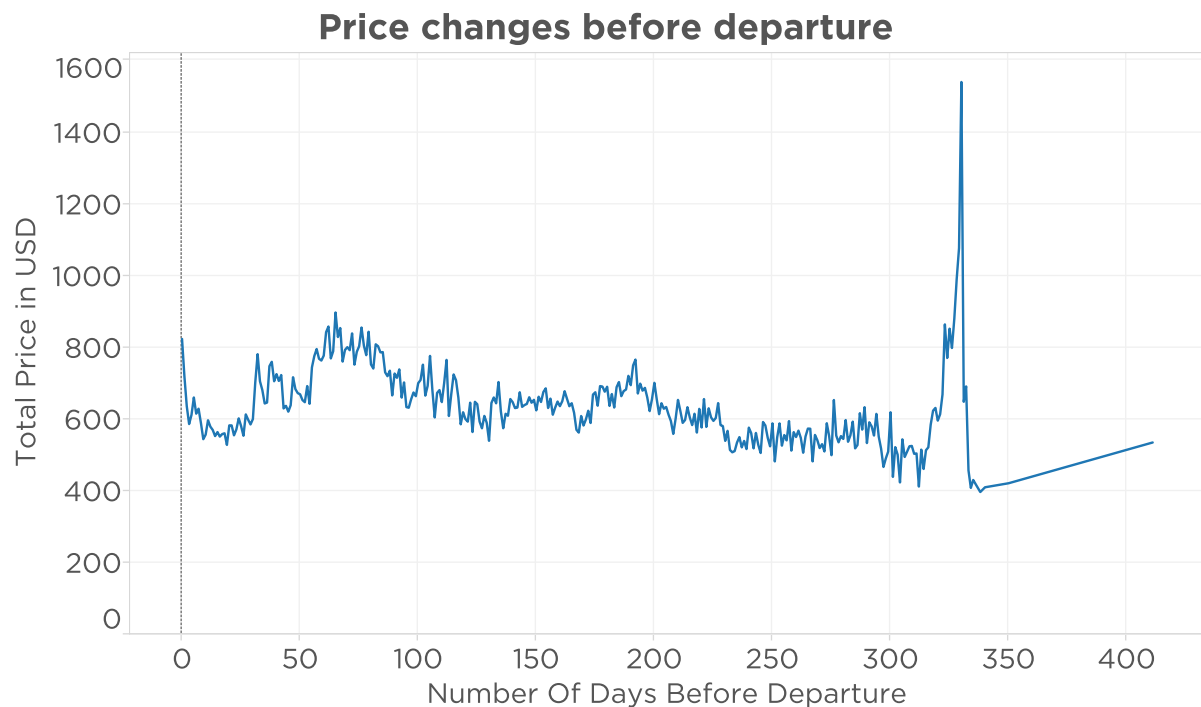

The cheapest airline to travel with is United Airlines (average price \$540) and the most expensive one is Lufthansa (\$6473).

## Day of the Week Travelled on

You can see that departing on Tuesdays and returning on a Friday is usually the cheapest. It is also relatively inexpensive to depart on a Sunday. If you want to return to Boston on a weekend, you should expect to pay more for your trip.
